

Project: Consulting Services for Planning and Implementation of the Water Supply and Sanitation Project, Sadah
Client: National Water and Sewerage Authority (NWSA), Sana'a, Yemen

Location: Sadah, Republic of Yemen

Consulting fee: € 1.4 million
DC consulting fee: € 1.2 million
Construction costs: € 13 million

Financing agency: KfW Entwicklungsbank

Project period: 2004 - 2009

Project description:

The objective of the project is to raise the level of public health through sustainable improved sanitary conditions and the efficient use of the limited water resources.

This involves the extension and improvement of the water supply and wastewater systems, and the promotion of reuse of treated wastewater and sludge.

Project Services:

- Preparatory project planning
- Hydro-geological investigation and well drilling
- Final design and hydraulic modelling for water supply and sewer network
- Preparation of tender documents
- Assistance to the PEA in tendering and contracting
- General and site supervision of works
- Supervision of the liability period and assistance in final acceptance
